

# Top Reasons to Climb at RockSport this Summer!

## Outside\*

It's hot. Like really, really hot!

You sweat and chicks don't dig it.

Extra sweating means buying more chalk.  
The cost adds up!

Road trips waste gas. You're killing the environment!

Sending hard routes outside is overrated.  
Polyurethane is where it is at!

There's no tape on the holds. You don't want to play the "Where's Waldo" of route reading.

*\*Totally sarcastic, climbing outside is awesome!*

## Inside at RockSport

RockSport's swamp coolers keep it cool so you climb continuously.

Our instructors can give you the technical knowledge needed to advance your skills for indoor and outdoor climbing.

Climbing for the entire summer is cheap:  
\$99 for three months including gear!

Our staff is awesome and has good taste in music. Come in and see us!
